Profile

First of all I am a die hard iOS developer, hardcore Swift programmer, a hobbyist sports man and an organizer. I have been programming in C and C++ since 2009, Objective C and Swift since 2014. Beside this I have some experience in game development and develop couple of games using sprite kit. I have also some experience in web development. I can make web service using Laravel. I also love Javascript for the font end development.

Experience

Digi Tech Bangladesh Limited — April-2015 to Present

Here I am start working with Swift. Till now I am working with Swift. Beside mobile application I have done web application as well. I make web service for my iOS application. I am experienced in Laravel 5.1, Javascript, jQuery and other web technologies.

RTC Hubs Limited — January-2014 to May-2015

I am starting my career as iOS Developer here. Working in Objective C and Cocoa touch. I make couple of application that are currently now live at App store.
